Notes

The Bahamas, Barbados, Belize, Jamaica, Saint Lucia, Suriname and Trinidad and Tobago conduct regular Labour force Surveys. The other countries data do Ad Hoc surveys, or the data is usually derived from the PHCensus, Country Poverty Assessment, or Household Budget Survey

2010, The Bahamas, a LFS was not done as is the usual practice when a PH Census takes place

Suriname 2013 - data for total is preliminary

Barbados 2015 - data refer to the second quarter

For Grenada - Unemployment here defines the unemployed to be persons 15 years and older who are not working, wanting work but not necessarily actively seeking work and available for work during the week ending 28th September 2013 (here the actively seeking

The Actively seeking work Criterion is defined for persons who would have demonstrated that they have taken some measure to seek employment during the month ending 28th Septmeber 2013 (the reference month)

TT - 2015 data refer to Q1 and Q2
