

Inventory of ICT Data

The following table is an inventory of the ICT information available for Member States. It is an update of the inventory assessment carried out for the 2nd Meeting of the ICT Statistics Sub-Committee. Countries will have to be contacted to ascertain the accuracy and to update some of the information contained therein.

Antigua & Barbuda:	INDICATORS INCLUDED	2008	
Household ICT Survey 2008 ..MS Submissions Q4 2008-current\AG\Antigua & Barbuda Household ICT Survey 2008.pdf	% of households with Radio; TV; Cable TV		Indicators shown by various demographics (including age, income, education, gender). Additional indicators can probably be extracted from the questionnaire data collected.
% of households owning a computer			
No. of computers owned by household			
Computer usage by household			
Proportion of household with fixed line telephones; mobile phones			
No. of persons with internet access at home			
Type of internet access in households			
When internet access obtained in home			
Reason for not accessing the internet			
Internet usage over the previous 12 months			
Where was the internet accessed most often			
Reasons for using the internet			
Purchases by respondents who used the internet in the past 12 months			
Awareness of Community Access Centers (CACs) (An initiative by the government)			
Usefulness of CACs			
Awareness of Government website			
Usefulness of Government website			
Government services householders would like to see

British Virgin Islands: Population and Housing Census ..\MS Submissions Q4 2008-current\VG\BVI ICT - Caricom.xls ..\MS Submissions Q4 2008-current\VG\Census Forms.PDF Household Budgetary Survey (HBS) ..\Emails rec'd early 2009 re inventory assessment\VG Compilation of Sources for ICT Statistics.msg	Indicators Supplied: Household population by household characteristics: TV; Cable TV/Satellite; VCR/DVD; Radio/Stereo; Have telephone; Have cellular telephones; Have computers; have internet connection	2002-2008	Website does not appear to have any ICT data. Projections from the census. Census form includes question that could also provide info on access to electricity. No data supplied, but similar questions were asked as in the census.

Source/Location of Document/Website Path/Link	Information	Available Data	Theme/Remarks
Telecommunication Providers ..\MS Submissions Q4 2008-current\VG\BVI ICT - Caricom.xls			
	Data has many gaps		Includes: No of calls (local and international); No. of internet connections, etc.
			In the process of developing a questionnaire to capture more information including demographics
Cayman Islands: Household Surveys See email at ..\Emails rec'd early 2009 re inventory assessment\KY Compilation of Sources for ICT Statistics.msg	Questions asked:		Question from the ongoing 2008 Labour Force Survey (LFS). Similar questions have been asked in earlier household surveys.
	Q 8.5 Does this household have the following . . . ?		
	Telephone (land line, how many)		
	Cell Phones (How many)		
	Computers (How many)		
	Internet at home Yes/No		
	Cable / Satellite Yes/No		
Business Surveys			Have just started conducting business surveys and does not have any data on ICT based on business surveys. However, in the future it might be possible to have a few questions on ICT in the business surveys about access and use of ICT by businesses, but that will probably be at least a couple of years away.
Administrative Records, Information and Communication Technology Authority			Have some ICT data from administrative records. They get data for example on Fixed and Mobile telephones from the Information & Communications Technology Authority. Need to investigate further the availability of ICT data from administrative sources.
Population and Household Census			It has not yet been decided whether availability of ICT devices will be included in the 2010 Population Census. (To check Census questionnaire to verify status)
Turks & Caicos Islands:	Indicators supplied:		

Source/Location of Document/Website Path/Link	Information	Available Data	Theme/Remarks
Population and Housing Census ..MS Submissions Q4 2008-current\TC\ICT Item from TCI Census 2001.pdf	Private Dwellings by Island indicating availability and access to amenities: Telephone; Computer; Internet Access; Radio, TV; Video; Stereo; Cable TV/Dish.	2001	The only ICT data available is from the Census. Question on electricity was also asked, so access to electricity could also be obtained from this source.
